

D955 Diesel Mobile Light Tower

Featured configuration for roadwork, mining, equipment rental and temporary project lighting.

Kubota Z482 Diesel engine	Mecc Alte 3.5 kVA generating system	4 x 400W LED 1,600W total lamp power	9 m / 120 L Hydraulic mast / standard tank
-------------------------------------	---	--	--

Key Benefits

- Four independently adjustable 400W LED floodlights for engineering work-area illumination.
- The 120 L standard fuel tank helps reduce refuelling interruptions.
- Kubota Z482 engine paired with a Mecc Alte 3.5 kVA generating system.
- 9 m hydraulic mast and manual stabilizer legs support straightforward site deployment and levelling.

Technical Specifications

Category	Item	D955 Featured Configuration
Product	Type	Towable diesel LED mobile light tower
Engine	Brand and model	Kubota Z482
Generating system	Alternator brand	Mecc Alte
Generating system	Rated capacity	3.5 kVA
Lighting	Floodlights	4 x 400W LED
Lighting	Total rated lamp power	1,600W
Mast	Maximum height	9 m
Mast	Raising system	Hydraulic
Fuel	Standard tank capacity	120 L
Undercarriage	Stabilizers	Manual stabilizer legs
Project configuration	Voltage, frequency and outlets	Confirmed for destination market

Category	Item	D955 Featured Configuration
Project configuration	Extended fuel tank	Available for project evaluation

Voltage, frequency, outlets, towing connection, packaging and destination-market documentation are confirmed during quotation. Fuel consumption, runtime, illuminance, dimensions, weight, protection rating and wind stability are published only after configuration-specific verification.

Information Required for a Quotation

Please provide the application, expected lighting area, daily operating hours, quantity, destination country, voltage/frequency, delivery schedule and any special towing or packaging requirements.
