

D955

Hydraulic Diesel Light Tower

A complete mobile lighting platform for project buyers comparing hydraulic mast operation and diesel power.

9 m

Hydraulic mast

4 × 400 W

LED floodlights

195 lm/W

Stated LED efficacy

312,000 lm

Stated total light output

CURRENT CONFIGURATION

Model	D955
Mast	9 m hydraulic lifting mast
Light source	Four 400 W LED floodlights
Total rated LED power	1,600 W
LED efficacy	195 lm/W
Total luminous flux	312,000 lm
Engine options	Kubota Z482 or D1105 diesel engine

CONFIGURATION REVIEW

Generator rating, voltage, frequency, outlets and permitted auxiliary loads are confirmed for the quoted package. Fuel tank, transport dimensions, weight, towing specification and supplied documentation are confirmed with the quotation.

Light output does not establish lighting coverage or lux at the work area. Fuel consumption and runtime require configuration-specific operating data.

REQUEST A PROJECT QUOTE

Send quantity, destination, application and hours per night.
